# 0156-15XXL

PCB Terminal Blocks > PCB Connector-Socket

Date:2025-12-24Version:V1

The web catalog is for reference only. Dinkle remains the right of product modification and engineering change of the design.

The final product is made according to engineering drawing.

### **Product Description**

Pitch: 2.54 mm, 150V, 5A

#### General information

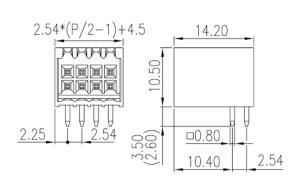

| Short description                      | PCB Connector – Socket, Reflow soldering                                            |
|----------------------------------------|-------------------------------------------------------------------------------------|
| Category                               | PCB Connector – Socket                                                              |
| Pitch (mm)                             | 2.54                                                                                |
| Color                                  | Black (default)                                                                     |
| Type of locking                        | Without                                                                             |
| Soldering method                       | Reflow Soldering (Temperature condition according to standard IPC/JEDEC J-STD-020E) |
| Length (mm)                            | 2.54*(P/2-1)+4.5                                                                    |
| Width (mm)                             | 14.2                                                                                |
| Height (mm)                            | 10.5                                                                                |
| Pin demensions (Thickness x Width)(mm) | 0.8x0.8                                                                             |
| PCB hole diameter (mm)                 | 1.4                                                                                 |
| Number of positions                    | 06P~44P                                                                             |
| Level                                  | Double level                                                                        |
|                                        |                                                                                     |

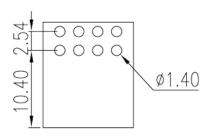

#### Material information

| Insulation material                          | HIGH-TEMPERATURE PLASTICS |
|----------------------------------------------|---------------------------|
| Insulation material group                    | IIIa                      |
| Flame retardant rating , compliant with UL94 | VO                        |
| Insulation resistance                        | □500MΩ at DC 500V         |
| Conductor material                           | COPPER ALLOY              |
| Plating of conductor surface                 | Tin PLATED                |
| MSL                                          | I                         |
| Connection data-IEC                          |                           |
| Rated voltage (V)                            | 160                       |
| Rated current (A)                            | 6                         |
| Rated voltage (II/2)(V)                      | 160                       |
| Rated voltage (III/2) (V)                    | 160                       |
| Rated voltage (III/3)(V)                     | 32                        |
| Rated impulse voltage (II/2)(KV)             | 2.5                       |
| Rated impulse voltage (III/2)(KV)            | 2.5                       |
| Rated impulse voltage (III/3)(KV)            | 2.5                       |
| Connection data-UL                           |                           |
| Rated voltage (UL/CUL Group B)(V)            | 150                       |
| Rated current (UL/CUL Group B)(A)            | 5                         |
| Environment & Safety                         |                           |
| Finger protection (YES or NO)                | YES                       |
| Operating temperature. max (°C)              | 120                       |
| Operating temperature. min (°C)              | -40                       |
| UL Recognized                                |                           |
| Rated voltage (Group B)(V)                   | 150                       |
| Rated current (Group B)(A)                   | 5                         |
| CUL Recognized                               |                           |
| Rated voltage (Group B)(V)                   | 150                       |
| Rated current (Group B)(A)                   | 5                         |
|                                              |                           |
